Performers may optionally include a written list of elements and/or present and explain their Free Routine(s) to the panel. Each Performer may submit multiple Free Routines, but during the competition, may submit a change only one time. Performers must declare which Free Routine they will perform for each Free Round.

The music file must be exactly as needed for the performance. Three short beeps followed by one long beep will automatically be added to each file to serve as a countdown to the athletes, judges and audience. You should therefore not add one yourself.

Please use the email you used for your ClicknClear license if you licensed your music through ClicknClear. Once logged in, you will be asked to upload your music. If you are using music that is in the Public Domain, you will need to confirm this on the system and accept that you are liable for any misinformation you have provided to us. Once music has been uploaded, the system will recognise the music being used and check if there is a license for it. If your music is licensed, you do not need to do anything further. If your music is not licensed, you may be able to license the music via ClicknClear. Please click 'License Missing Tracks'. If you licensed your music but did not do so via ClicknClear, you can submit your license agreement PDF on the same page as the audio uploader. If the music has not been identified, please contact support@clicknclear.com.
