Event	Motor Types Supplied
S2P	Provided by contestant*
S4A	A3-2T & A3-4T
S6A	1/2A3-2T & 1/2A3-4T
S7	Provided by contestant*
S8P	D2.3-PT Reload Kit**
S9A	1/2A3-2T & 1/2A3-4T

\* Motors must be NAR safety certified single-use motors that contain no more than 30 gm of propellant.

\*\*Contestant must provide Aerotech RMS-18/20 reload case with plugged forward closure.

Spare igniters and plugs will be available if needed.

Adrel altimeters only can be used for S2P. Adrel altimeters will not be available for rental at this meet. Competitors must supply their own.

This meet has also been sanctioned to register flights for the NRC scoreboard, and a NAR Record Trials. Come fly!

Every flyer is expected to bring a support person who can help time during the contest. We rely on volunteer timers to make sure the meet flows smoothly and everyone gets to fly when they would like.

FAI rules dictate that only Juniors may fly their models, and no adults are permitted in the flying lanes. The range will be divided into Senior and Junior ranges. To ensure that the Juniors are flying

their models (rather than adults), there will be an adult “keep out zone” on the Junior side of the range. Only the RSO can approve the presence of an adult in the Junior range. We ask that you honor the spirit and intent of the rule; at the WSMC, the ranges will be physically separated. If both a Senior and a Junior are using the same launch equipment, it will have to be physically moved between flights to the appropriate range.
